ART CLUB

For students in Years 7 & 8

Every Tuesday after school - Room T11

Congratulations to Abby Rippin, Year 11, who's work was "Highly Commended" at this year's Creat-Ed Exhibition/Arts Competition.

The competition is organised by Falmouth University, every year secondary schools are invited to submit work for the exhibition which is held at Penryn Design Centre. Poltair has entered in the past but this is the first time one of our students' work has received this commendation.

Abby was commended for a piece of work produced as part of her GCSE Photography coursework (pictured left), this is even more of an achievement when you consider that Abby completed the full course in just two terms! She had previously gained an A* in Art in 2017 with her Year 9 & 10 work.

We would like to wish Abby every success for the future.

Year 11 Prom

The sun shone down on the Carlyon Bay Golf Club last Friday for the annual Poltair School Leavers' Prom. The pupils looked amazing in a range of suits and dresses, arriving in an array of cars and some even escorted by mopeds! Welcomed by the watching staff, family and friends, they entered the venue for an evening of celebration, dancing, photo booth fun and a chance to say goodbye to their time at secondary school. It was well attended as always by pupils and staff, and the Class of 2018 was no exception. Great fun was had by all and we would like to wish them well for whatever their future holds.

Salters' Institute Festival of Chemistry

On Tuesday 5th June, four students from year 8 attended this event at Truro College. The day consisted of two challenges which involved the students working as a team to carry out experiments and presenting results in a report. The teams were judged on their collaborative working as well as their ability to follow the methods, obtain clear results and adhere to the health and safety guidelines. We are delighted that the team from Poltair secured third place in 'The College Challenge'.

All four were impeccably behaved and a credit to both the Science department and Poltair. The students were then treated to 'The Wonderstruck Science Show' to finish off the day.

The students involved were: Bronwen Craddock, Jacob Hearn, Quentin Johnson-Hoskin and Madison Tregonning.
