**February 14th**

Year 7&8 Parents with Tutors Evening

Year 7 students were recently set the challenge of producing a design for a medieval castle. They were also given the opportunity to make their castle out of any material of their choice.

They certainly did not disappoint!

The range and quality of castles was exceptional.

Special mention for Tallulah who brought her castle to the lesson and assembled it there, as it was enormous!

An amazing effort, well done Year 7.

Below are a few of the creations...

**Next Drop-In Session: 25th February**

**12:45pm in the School Library**

# Ten Tors - Endurance Training

On Saturday 26<sup>th</sup> January, after a rigorous, mandatory clothing & equipment check, the Ten Tors teams faced a day of endurance training and skills based learning.

Tia-Louise Townsend said, “We worked hard when we were endurance training in the sand dunes. Misha’s team were chasing Elliot’s team for Stage 1 and then we swapped over for Stage 2”.

Kayleigh Powell said, “There was great teamwork and the teams improved their overall performance. We learnt the rules and safety surrounding the use of the gas stoves and had the opportunity to try our ‘boil in the bag’ meals”.

The day concluded with the tradition of the chocolate éclair micro-navigation challenge... naturally, all of the students rose to that challenge!

Are you a student in Year 9 or 10 and interested in joining the 2019 Ten Tors team?

If so, please contact Miss Blackburn (Team Manager) as soon as possible:

## Science Trip

On Saturday 26<sup>th</sup> January, the Science team led a highly successful trip to London for 61 students from years 9, 10 & 11.

They began the day at Gunther Van Hagen’s Body World Exhibit.

Students were able to participate in an immersive high-tech experience.

Real human biological specimens (preserved using state of the art techniques) displayed various features of anatomy, giving a 360 view of a human dissection. There were also state of the art interactive displays.

Students then paid a visit to the Natural History Museum where they were immersed in the magic of dinosaurs, evolution and the wonders of the natural world!

A great time was had by all, thank you to the Science team for providing our students with this opportunity.
