

On 4th April, Year 7 will be taking part in a team building workshop, led by Footsteps of Discovery.

The workshop will focus on the LORIC attributes that they have been exploring in their assemblies/Tutor Programme. It will also be an opportunity for the students to meet the team at Footsteps of Discovery, the same team that will be facilitating our Year 7 Camp, in July.

Time: 40-minute workshops

Taking place on rotation during Blocks 1 and 2

Cost: £1 per student

Payments can be made via School Gateway or direct to the Finance Office (first break only)

50% of this fee is a charitable donation to ABF The Soldiers' Charity

Clothing: PE Kit

Students can wear PE Kit into school but will need to bring their uniform to change into after they have completed the workshop

Year 9 COPE Class

COPE is a new class that we have introduced this year. It is a challenge based qualification that is focused on personal skills and real life challenges, designed to set students up for adulthood.

The class are raising money to re-establish the Poltair Garden, situated on the main field. They would like to grow vegetables and flowers with a view to then selling them as part of an enterprise project.

On Wednesday 3rd April, they are going to be holding a Cake Sale in the Cyber Café during both breaks.

Cake prices will range from 25p - £1.

Any cake donations will be gratefully received...

Thank you

British Science Week 2019

Earlier this month, Poltair celebrated British Science Week by hosting numerous Science themed activities, trips and competitions.

We were lucky enough to be visited by Glynn Bernalick (local astronomer) and Richard Pemberton (local engineer), both of whom spoke to students of their careers and research.

The week's assemblies took on a Science theme, with staff talking to students about their own personal journeys in the field of Science. Our Science team came into school aptly dressed for the occasion on the final day (see left).

Well done to them for their hard work in putting the week's events together.

On Monday 11th March, 30 students visited St. Austell Library with Miss Spicer. This was to discuss careers in the Forensic Science field, with a tutor from Truro College.

Students were able to interact and ask questions about what happens at a crime scene. They observed a real life crime scene investigation kit and even had the opportunity to analyse their own fingerprints!

They learned about the various careers that students can pursue after completing this course at Truro College. It was a great opportunity for all students, but in particular year 8s who are currently choosing their GCSE options.

THE GREAT BRITISH Science Week BAKE OFF

- Winners**
- Periodic Table themed cake
Lily Wells
 - Space/Journey themed cake
Tiernan Bertrand
 - Original/Creative cakes
Mia Morris, Beth Lapham & Josh Lapham
